Boost plants with Super Strength Seaweed Extract

Neudorff is renowned for its use of effective natural ingredients across its entire weed, feed and control range, and this latest addition harnesses the nutritional powers of seaweed to boost plants and edibles.

New Super Strength Seaweed Extract features a 100 per cent natural formula, which stimulates sprouting and root growth. It helps to produce higher yields of edibles and can enhance the quality of your plants.

The Bio Stimulant offers numerous benefits in the garden, as it contains a unique mixture of main and trace nutrients, enzymes, amino acids, hormones, vitamins and proteins, which are essential in boosting plant health.

Super Strength Seaweed Extract is suitable for organic gardening and can be used on all flowers, fruits and vegetables. It is available in 1L concentrate bottles, which can be diluted to make up 100L of fertiliser.

RRP: £9.99
