

## Neudorff's Pyrol Bug & Larvae Killer approved by Organic Farmers & Growers Association

Neudorff's *Pyrol Bug & Larvae Killer RTU* is now approved for organic agriculture by the Organic Farmers & Growers Association<sup>1</sup>.

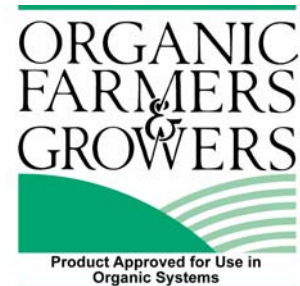

The insecticide is suitable for use on all types of flowers, fruits and vegetables. It contains the 100% natural active ingredient pyrethrum which is derived from chrysanthemum flowers harvested in the Kenyan Highlands.

Due to the pyrethrum's rapid breakdown there need only be a short waiting period prior to harvest when used on edible fruit and vegetables.

The unique formulation of *Pyrol Bug & Larvae Killer* controls a wide range of harmful pests including aphids, whitefly, greenfly, spider mites, mealy bugs, scale insects, leaf hoppers and thrips. It also acts on the eggs and larvae of the insects to provide extended periods of control.

The neonicotinoid free product allows very effective control of pests while being low risk to bees.

Neudorff has specialised in the development and production of natural gardening products for more than 150 years. In order to reduce the impact of
